Subject Index, 1965

Budgeting

The Essence of Budgetary Control, Maurice S. Newman, January-February, p. 19.

The Profit Approach to Budgeting, Allen B. Koltun, September-October, p. 47.

Capital budgeting

The Discounted Payback Period, Alfred Rappaport, July-August, p. 30.

Computer service bureaus

Accounting-EDP Center, Robert M. Smith, May-June, p. 34.

Some Specialized Uses of Data Processing Centers, David Coleman and Theodore Cohn, September-October, p. 40.

Consulting

Human Factors in Systems Design, James B. Bower and J. Bruce Sefert, November-December, p. 41.

Reporting to Clients, George S. Olive, Jr., July-August, p. 46.

Control systems

Basic Concepts for Designing a Fundamental Information System, A. F. Moravec, July-August, p. 37.

Basic Concepts for Planning Advanced EDP Systems, A. F. Moravec, May-June, p. 52.

Management Information Systems, J. W. Konvalinka and H. G. Trentin, September-October, p. 27.

Cost analysis

Analyzing Burden Variance for Profit Planning and Control, Ben R. Copeland, January-February, p. 34.

Departmental Machine-Hour Rates in a Small Company, Thomas S. Dudick, July-August, p. 13.

A Statistical Tool for the Cost Accountant, Donald S. Brightly, September-October, p. 13.

The Use of Statistical Methods in Determining Cost Differentials, Granville R. Gargiulo, May-June, p. 45.

Cost control

Responsibility Accounting, Jose Manuel Pintado, March-April, p. 34.

Decision tables

Decision Tables, James I. Morgan, January-February, p. 13.

Electronic data processing

Accounting-EDP Center, Robert M. Smith, May-June, p. 34.

Automated Inventory-Production Control, Robert M. Smith, September-October, p. 18.

Basic Concepts for Designing a Fundamental Information System, A. F. Moravec, July-August, p. 37.

Basic Concepts for Planning Advanced EDP Systems, A. F. Moravec, May-June, p. 52.

Evaluating Proposals From Computer Manufacturers, Kenneth C. Cole, November-December, p. 28.

The Feasibility of Real Time Data Processing, E. Michael Shays, July-August, p. 19.

Organization for Effective Information Flow, W. Thomas Porter, Jr., and Dennis E. Mulvihill, November-December, p. 13.

Some Specialized Uses of Data Processing Centers, David Coleman and Theodore Cohn, September-October, p. 40.

Financial analysis

Graphic Tests of Equity in Financing Corporate Combinations, Charles H. Griffin and Thomas H. Williams, November-December, p. 21.

Seasonal Adjustment of Accounting Data, Werner Frank, November-December, p. 51.

International operations

How ITT Manages Its Foreign Exchange, John Verroen, January-February, p. 27.

How to Get Started in Foreign Operations, J. B. Harris, March-April, p. 41.

Inventory control

Automated Inventory-Production Control, Robert M. Smith, September-October, p. 18.

Inventory Gains and Losses, Thomas E. Gossett and G. H. Newlove, July-August, p. 52.

Setting Inventory Reorder Points, Fritz A. McCameron, May-June, p. 25.

Management science

Decision Tables, James I. Morgan, January-February, p. 13.

Operations Research—The Basics, E. Leonard Arnoff and M. J. Netzorg, January-February, p. 42.

Simulation in Financial Planning, E. N. Khoury and H. Wayne Nelson, March-April, p. 13.

XYZ Outboard Motor Case, Peter H. Burgher and Donald B. Brout, May-June, p. 15.

Mergers and acquisitions

Graphic Tests of Equity in Financing Corporate Combinations, Charles H. Griffin and Thomas H. Williams, November-December, p. 21.

Operations research

See Management science

Organization

Organization for Effective Information Flow, W. Thomas Porter, Jr., and Dennis E. Mulvihill, November-December, p. 13.

Planning

The Essence of Budgetary Control, Maurice S. Newman, January-February, p. 19.

The Profit Approach to Budgeting, Allen B. Koltun, September-October, p. 47.

Seasonal Adjustment of Accounting Data, Werner Frank, November-December, p. 51.

Pricing

The Use of Statistical Methods in Determining Cost Differentials, Granville R. Gargiulo, May-June, p. 45.

Profitability analysis

The Use of Statistical Methods in Determining Cost Differentials, Granville R. Gargiulo, May-June, p. 45.

Psychology

Human Behavior: A Factor in Accounting, E. D. Smith, September-October, p. 53.

Human Factors in Systems Design, James B. Bower and J. Bruce Sefert, November-December, p. 41.

Responsibility accounting

Responsibility Accounting, Jose Manuel Pintado, March-April, p. 34.

Retailing

Accounting-EDP Center, Robert M. Smith, May-June, p. 34.

Simulation

Simulation in Financial Planning, E. N. Khoury and H. Wayne Nelson, March-April, p. 13.

Statistical analysis

A Statistical Tool for the Cost Accountant, Donald S. Brightly, September-October, p. 13.

The Use of Statistical Methods in Determining Cost Differentials, Granville R. Gargiulo, May-June, p. 45.

Systems analysis

Effective Management of a Systems Project, Philip A. Doherty and Justin G. F. Wollaston, March-April, p. 22.

Human Factors in Systems Design, James B. Bower and J. Bruce Sefert, November-December, p. 41.

Work measurement and simplification

Controlling the Costs of Keypunch Operations, Richard Paulson, November-December, p. 35.

Work Sampling—First Step Toward Work Measurement, Henry De Vos, March-April, p. 54.
